RE: REACH (EC Regulation on chemicals and their safe use)

Dear Sir/ Madam,

according to the current state of documents  
with the REACH Competent Authorities,  
we believe that the REACH regulation does not apply to us for the following reasons:

- we transform “polymers” explicitly excluded from the REACH regulation
- the plastic materials used by us do not contain additives that are intended
- to be released from the articles under normal or foreseeable conditions of use.
- we do not import plastic raw materials from outside the EU.
- the obligation for the REACH registration is in progress by our EU suppliers if necessary.

We trust to have informed you hereby sufficiently and  
we remain at your disposal for any info you might require.

Best regards,

Peter van der Gaast
