1.1 INTRODUCTION

In this chapter we explain how you can manually enter your order in the e-commerce section of our website.
It is also possible to import your order from your internal order management system, which is explained in chapter 2 of this manual.

1.2 LOGIN

Go to the homepage of our website www.atp.it and enter the registered area with your username and password:

The screenshot shows the ATP website homepage. The top navigation bar includes links for home, products, news, customer care, who we are, and contact. The main content area is divided into several sections: a 'Welcome to atp' message, a 'Products' section with links to 'Accessories for handles', 'Accessories for curtains', and 'Accessories for ironmongery shops', and a 'We introduce ourselves...' section. On the left side, there is a 'News' section with dates and titles, a 'Newsletter' sign-up form, and a 'Reserved for registered customers' login section. The login section has fields for 'User:' and 'Password:', a 'Login' button, and a link for 'Not registered client yet? Click here to obtain a password.' A red arrow points to the 'Login' button.

Welcome to atp
since 1968 quality products and services

In our factory we process thermoplastic materials and modern technopolymers.
On top of this we supply brass, aluminium, iron and stainless steel (inox 304) articles, in order to complete our range of products.
We are able to develop and construct injection moulds on the basis of drawings or samples and to carry out the necessary alterations.

We are market leader in Italy and we serve clients throughout the world. With our customers abroad we correspond in English, French, German or Spanish.

Every year we are present at Europe's most important professional fairs.

[Back to contents](#)

2.1 INTRODUCTION ORDER UPLOAD

We have developed this application for our clients who have their own internal order management system, to avoid that they have to enter their order 2 times, i.e. 1 time in their internal order management systems and 1 time in our e-commerce platform. This means an important simplification for our clients, that leads to a saving of time and a reduction of order entry errors.

2.2 CREATION OF A CSV FILE

After having inserted your purchase order in your internal order management system, download it as a file in CSV (Comma Separated Variable) format on your computer. The CSV file must contain the following information:

Column A: your article code (not mandatory), only if atp has already linked your article code to atp's article code
Column B: the article code of atp (not mandatory when column A has been filled in)
Column C: order quantity (**not in packaging units, but in pieces or in meters, depending on the article**)

The file must be WITHOUT a header or title row:

	A	B	C
1	BP006N000AS3RL	MKBV3060V0/00NA	5000
2	RP00B4O000A21RP	ARA0913C00/0002	2000
3		MKRT520C16/0801	2000
4		ARS686FBP0/00NA	24000
5			

2.3 IMPORTATION OF THE CSV FILE

Go to the homepage of our website www.atp.it and enter the registered area with your username and password:

The screenshot shows the ATP website homepage. At the top, there is a navigation bar with links: home, products, news, customer care, who we are, and contact. Below this, there is a section for 'News' with dates and titles. A 'Newsletter' section is also present with a sign-up button. The main content area features a 'Welcome to atp' message and a 'Products' section with links to 'Accessories for handles', 'Accessories for curtains', and 'Accessories for ironmongery shops'. A red arrow points to the 'Login' button in the bottom left corner of the page.

	Actual Order	better disc.(-)/ surcharge(+) starting from
Gross order amount	1.200,02	1.600,00
Discount	-13%	-16%
Net Order Amount	1.044,02	

The discount depends on the amount, on the payment and on the delivery of the order.
ATTENTION: order NOT confirmed. To send it to atp please click 'confirm the order inserted'

In this window you can still make your final modifications, such as cancel order lines, change the order quantity, add articles, modify the delivery address of the goods and so on. After each modification click on the button **"Refresh Qty and Comments"**. Once you have clicked on the button **"CONFIRM THE ORDER INSERTED"** you will not be able to make any further changes. Before confirming the order we recommend to print it for your records, by clicking on the printer icon. Only when you have confirmed the order we can download it and send you the corresponding order confirmation.
